TOWN WARRANT

State of New Hampshire

To the Inhabitants of the Town of Lyme, in the County of Grafton, in said State, qualified to vote in Town Affairs:

(L. S.)

You are hereby notified to meet at Church Hall, in said Lyme, on Tuesday, the tenth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.
3. To see if the town will vote to accept the reports of the town officers as printed.
4. To see what compensation the town will allow its various officers the ensuing year.
5. To see what order the town will adopt in relation to the Savings Bank Tax, Railroad Tax, auto permit fees, Interest and Dividend Tax and Insurance Tax the ensuing year.
6. To see what sums of money will be raised and appropriated to repair highways and bridges the ensuing year including North Thetford bridge.
7. To see what sums of money the town will vote to raise and appropriate for the support of the town library the ensuing year.
8. To see what sums of money the town will vote to raise and appropriate for improvements in the cemeteries the ensuing year.
9. To see if the town will vote to allow bank discount on all taxes paid before November 1st, 1931.
10. To see what sums of money if any the town will vote to raise and appropriate for the purpose of graveling highways the ensuing year.
11. To see if the town will vote to raise and appropriate

the sum of \$200 for the Mary Hitchcock Memorial Hospital the ensuing year.

12. To see if the town will raise and appropriate the sum of \$400 for White Pine Blister Rust control the ensuing year.

13. To see if the town will raise and appropriate the sum of \$75 for the G. A. R., W. R. C., and American Legion the ensuing year.

14. To see what action the town will take in regard to mowing the Common the ensuing year, and raise and appropriate money therefor.

15. To see what action the town will take in regard to buying land for a town forest and raise and appropriate money therefor.

16. To see what action the town will take in regard to removing snow from the back roads the ensuing year, and raise and appropriate money therefor.

17. To see if the town will vote to raise and appropriate the amounts recommended by the N. H. Highway Department.

18. To see if the town will vote to discontinue the road leading from Ernest Messer's to the Lambert Brothers.

19. To see if the town will vote to have an electric light placed at the corner near Lyme Creamery also two more placed east from Lyme Center Village.

20. To see if the town will vote to repair and maintain suitable sidewalks for pedestrians along the side of the D. C. Highway from the residence of Hazen E. Turner to the residence of Allie G. Clark, and from the residence of G. W. Weymouth to the intersection at the store of F. A. Randlett, and raise and appropriate money therefor.

21. To see how much money if any, the town will vote to raise and appropriate on the town debt.

22. To see if the town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

23. By petition, the following article: To see if the town will vote to hire all married men that are taxpayers on Real Estate or married men that are residents of this town that are needed to be employed, in town or State aid work and that these men shall work nine hours a day,

meaning that they shall be on their job at seven o'clock a. m. and work until five o'clock p. m., wherever their work may be, and upon first complaint from residents of this town to the selectmen that these men are not doing their duty, the selectmen shall make an investigation at once, and if found they are not, the Road Agent shall be discharged at once by the Selectmen, and a new Road Agent appointed by them. These married men shall be capable of doing a good day's work, and in case there are not enough married men, they may hire single men of this, but not to hire out of town help.

24. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this eighteenth day of February, in the year of our Lord nineteen hundred and thirty-one.

George A. Pushee,
Sidney W. Bates,
Hervey H. Hobbs,
Selectmen of Lyme.

A true copy of Warrant—Attest:

George A. Pushee,
Sidney W. Bates,
Hervey H. Hobbs,
Selectmen of Lyme.

Lyme, N. H., February 2, 1931.

David A. Grant, Treasurer
 George A. Pushee
 Sidney W. Bates
 Hervey H. Hobbs
 Selectmen.

Lyme, N. H., February 14, 1931.

This certifies that we have this day examined the accounts of David A. Grant, Town Clerk and Treasurer, also the accounts of the Highway Agent, the Selectmen and the Treasurer of Trust Funds and the Library Treasurer, and find all correctly cast and each item supported by its proper voucher.

H. J. Kemp
Marion N. Small

Auditors

WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Lyme in the County of Grafton, in said State, qualified to vote in district affairs:

You are hereby notified to meet at the Church Hall in said district on the tenth day of March, 1931, at two o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To hear the reports of Agents, Auditors, Committees, or other officers heretofore chosen, and pass any vote relating thereto.
6. To choose Agents, Auditors, Committees in relation to any subject embraced in this Warrant.
7. To see if the District will vote to raise and appropriate the sum of \$6078.61 (\$5 on a thousand of the equalized valuation) for the support of schools.
8. To see if the District will vote to raise and appropriate the sum of \$4440.42 plus any additional receipts of the department for other necessary expenses including such items as salaries of district officers, administration, tuition, transportation, per capita tax, special repairs, insurance, etc.
9. To see if the District will vote to raise and appropriate the sum of \$350.00 for the continuance of instruction in music in the public schools.
10. To transact any other business that may legally come before said meeting.

Given under our hands and seals at said Lyme this
21st day of February, 1931.

Arthur E. Derby
Mary A. Chase
Lela M. LaMott

Auditors' Report

This is to certify that we have examined the books and other financial records of the school district Treasurer of the town of Lyme, New Hampshire, of which this is a true summary for the fiscal year ending June 30, 1930, and find them correctly cast and properly vouched.

Henry J. Kemp
Marion N. Small
Auditors.

REPORT OF THE SUPERINTENDENT

To the School Board of Lyme:

This is the 12th in the present series of annual reports of the Lyme School District. It is the third of the series of such reports by the writer.

Survey

This report will attempt to present to you and through you, to the citizens of the town, a partial summary of the various activities of the public schools. The statistical and financial information is based upon fact and such data as was accumulated for the year ending June, 1930. Since these facts do not exactly correspond to the town fiscal year, it is not easily possible to give an adequate picture of the business of the district in any one report. A careful consideration of the items herein contained will aid in becoming acquainted with the aims and purposes of the work in your schools.

Plans which were made during the preceding year have been carried forward with progress. The educational status of your schools is on the whole showing improvement. The attendance at the schools has been normal and at about standard for the state. The health work has been carried on with greater regularity and with much more care both for the group of children and for individual cases. It is commendable that so much has been done by the community in improving the physical conditions of its school buildings. This work should continue until all buildings in use can be classified as standard schools according to the state department's criteria for such schools.

Budget

The budget requirements for the next school year will be about \$700.00 less than that of last year. This is due to economies practiced and to the gradual increase in state aid for the last three years. It is based also upon the operation of the present number of schools. Should population changes or other causes necessitate, additions to the allowances will need to be made.

Repairs

Your board and the citizens of the town are to be con-

gratulated that so much has been done during the past two years to bring about better sanitary conditions and more wholesome surroundings in your schools and buildings. The district was particularly fortunate this year when it received an extra allotment from the state, thus making it possible to enter upon, and carry through a major project. You already know that this consisted in providing more wholesome toilet facilities for the pupils at the Plain School. The board acted wisely in utilizing this resource together with its special repair fund for the purpose of providing water, as well as modern sanitary appliances for use in this building. The artesian well, which was driven at the Plain, furnishes a fair supply of water of good quality. Careful use will make it possible for this well to supply a sufficient amount of water in this building for many years to come. There will no longer be use for the unsanitary and unhygienic out-building at that school.

You will recall that the original estimates for this work were about \$600.00 less than the final cost. This was due mainly to the increased depth of the well over original expectations. This was a factor beyond human control so that the Board exercised reasonably good judgment in completing the work, especially since it was found that it could be done without overdrawing the total appropriation of the district. The fact that the Board's budget for the year was approved by the State Commissioner of Education is an indication of his confidence in the action of the Board.

It has been difficult to heat this same building for the past several years. A careful investigation resulted in establishing the fact that there was an insufficient supply of hot air coming from the furnace to heat the rooms above. Under your direction, therefore, repairs were made in such a way as to provide for a greater volume of heated air and for better air circulation. This has resulted in very much greater comfort in this building so that on mornings of extreme temperature, it has been possible to heat both of these rooms.

The electric lights installed in this building have met a need which has been brought to my attention by the teachers several times since my acquaintance with your schools. It is now possible to utilize this building even

on the darker days for better school work. It will make possible also the use of the building for any community purposes which the board may deem a legitimate use of the school.

The continuance of the policy of introducing circulating heaters into the several schools has been particularly advantageous. You are reminded that at the present time such heaters are in use and have been purchased within two years for both rooms at Lyme Center, one at the Chesley School, one at the Stetson School, and one at the Whipple School. This means that there are now five such heaters in use in the several school buildings. Teachers and pupils alike express themselves to me as very much pleased with the greater comfort brought about by this type of heater. The Chesley School has this year been provided with new desks of the movable type. This makes possible a better seating arrangement in that building. It also adds to the convenience in use as a school and as a meeting place for the citizens of that neighborhood.

Further repairs as indicated in a preceding paragraph should be made to improve both hygienic and sanitary conditions including lighting in the Chesley School and replastering of the walls in the Stetson School.

Hewes School

Your attention is directed to the fact that in April of last year, a discussion took place in the Board as to the desirability of discontinuing the Hewes School. It was brought out that there would be about eleven pupils in that building and that they could be accommodated without much difficulty, and with much more satisfaction and ease, at the Plain School than they could in the Hewes building. A survey of the situation was made and only one family was found who offered serious objections to the closing of the school. A second family, who was reported to be dissatisfied, has since left town, so that there remained but the one family. A summary of the situation brought out the fact that when the costs of transportation, as well as the costs for a teacher and necessary expenses incident to the operation of the school, were taken into consideration a saving of between \$300.00 and \$400.00 could be effected by this

arrangement. Since it has been demonstrated that small schools cannot be efficiently operated, it seemed to be a wise decision on the part of the board to close this school and transport the pupils to the Plain School where they would have the benefit of a larger number of associations and an improved environment. That the action of the board was sound, is borne out somewhat by the fact that these children are now happily at work in the Plain School, and have expressed themselves as being pleased with the arrangement.

Pond School

The action of the Board in connection with the request for the opening of the Pond School, was in keeping with its policy to comply with the wishes of the parents in a given area when it is educationally and financially possible. The Board was requested by a petition of citizens, many of whom were not residents of the area involved, to call a special meeting to determine whether or not this school which had been closed for many years should be reopened. The meeting was called and the result was negative, leaving the situation in its original status. A subsequent petition for another meeting was made by ten voters. A second district meeting was held and action was taken authorizing the Board to open the school but no action was taken to provide additional funds needed. It was found that to operate this school would require from \$600.00 to \$700.00 in addition to transportation item, and in addition to any expenditure needed for repairs. The Board was giving the whole question serious consideration as to ways and means when a third petition was presented signed by all parents in that area, with one exception, urging the Board to continue the present plan.

You were informed by the Commissioner of Education that it was your province to determine what schools would best serve the interests of the children educationally, and only performed your duty in making the decision to continue the plan of transportation then in force, in this way offering better educational opportunities than would otherwise have been the case.

It is in keeping with best practice in other communities similarly situated to operate only such schools as

will best serve the educational interests of the pupils. Since you have thus acted it has been in harmony with your own practices and that of the town and for the best interests of the whole school district.

It would appear that so long as present conditions exist as to numbers of pupils and locations of families that there is no further plan contemplated for closing other schools. As evidence of your policy and purposes in this regard, definite requests have been made in this report for a sufficient appropriation for repairs to bring about needed improvements in the Stetson and Chesley schools and this recommendation has met with your approval. Your own action last year in making extensive repairs at the Whipple School is further evidence of this same attitude.

It is my personal desire to assist in making all schools in use as near standard schools as possible, and to render such service as shall be compatible with your policies. The preceding statements are made to enable all citizens to more clearly understand the action of the school officials and to give a reasonable amount of credit to the Board for acting in good faith and so far as humanly possible, in accordance with the wishes of the citizens of the town.

Report Cards

A definite plan for recording the progress and success of the pupils' work has been furnished the teachers for their work-books. The method of marking is based upon certain specific principles rather than upon mere teacher opinion. But more than that a place is provided on the report cards for giving both pupils and parent better ideas of causes of success. This part of the card helps in the formation of desirable habits of behaviour. The cooperation of the parents in encouraging the boys and girls in these more desirable traits will help much in the final result of character development. This is one of the main demands for the good citizen. It is for that reason that attention is paid in our best schools to foundation of as strong character habits as possible.

Teachers

Lyme may well be pleased with its teaching force. One is a college graduate, four are normal school grad-

uates, and two have attended summer normal school consistently for several summers. Particular commendation should be given to those who are sufficiently interested in their school work to devote both the time and energy necessary to secure this summer work. Your schools have already benefited by the better trained teachers and the policy of employing only trained teachers should continue.

Music

The action of the voters in granting an appropriation for music was much appreciated by parents, teachers and pupils. It was impossible to make the early arrangements for this work we had hoped to make. Several persons were interviewed but it was late in the fall term before final arrangements could be made. The teacher, Mrs. Rose, has had music instruction abroad and has been trained in methods of teaching public school music in special music schools in Massachusetts. She brings to her work knowledge, enthusiasm, and vigor which presage final success for this work. Since an appreciation of the finer aspects of life should be a part of the heritage of every child it is respectfully urged that this work be continued even though a somewhat larger appropriation will be required to carry it on successfully.

School Lunches

One innovation this year has already demonstrated its worth. It is the provision made in some of the schools for hot lunches. The interest of a local organization of citizens in making this possible shows a commendable spirit. It is planned to have this work extend to all of the schools as soon as suitable provision can be made. Children coming to school from rather long distances need the added nourishment which is to be had from the wholesome, warm foods which can be prepared by the teacher and older pupils without serious detriment to the other school work.

Recommendations

It is an agreeable duty to state that the school board and citizens of Lyme have continued a forward looking policy in regard to the schools. Music has been introduced, a school nurse has been provided, school build-

ings have been repaired on a more permanent plan, better heating in all the schools, making possible a more hygienic circulation of air has been furnished so that we may look forward with the expectation of continued progress. The following recommendations are made with confidence in their ultimate adoption and completion.

1. That continuous provision in the budget for music in the schools be made to the end that it become a permanent part of the school work.
2. That the idea of hot school lunches be carried forward until all children who stay at the schools for their noon day meal are accommodated.
3. That the health work in the schools as now undertaken, be made permanent.
4. That the plans for systematic repair and upkeep of school property be continued.
5. That there be a continuous betterment of the equipment used by both teachers and pupils.

It is true that in communities situated as is Lyme, there will be honest differences of opinion and honest criticism of the officials who are striving to carry on the public work. But, while such a local condition may exist, it is true also that the general attitude of cooperation, helpfulness, and friendliness continues. This is an asset in the taking of forward steps which cannot be overlooked. Your superintendent, recognizing all such factors, is ever ready to render his best service to the young people of your community. All may look forward with the sincere belief that positive success will attend the efforts of the Board, the citizens, and the pupils, in the great work of education.

Respectfully submitted,

Robert J. Fuller.

| Total or Averages for 1927 | | 125 | 115.21 | 111.81 | 97. | 256 | 2.22 |
| Totals or Averages for 1926 | | 121 | 106.59 | 101.41 | 95.14 | 278 | 2.61 |
| Totals or Averages for 1925 | | 117 | 97.17 | 93.74 | 96.26 | 325 | 3.31 |

The enrollment, average membership and average attendance show a consistent growth over a period of years. As usual the Whipple School is first in the percentage of attendance. This means that the pupils in that school are regular in each day's attendance. There are still too many cases of tardiness although a decided improvement has taken place in the last two years. Eleven pupils were neither absent nor tardy for the entire year. Ninety-three pupils were neither absent nor tardy for one or more periods.
